ABOUT

Product Designer with 2+ years of experience designing enterprise analytics and data visualization experiences for Microsoft, primarily across **Microsoft Fabric** and **Power BI**. Independently owned and designed multiple product features, collaborating with stakeholders and managers to deliver intuitive, consistent, and accessible user experiences.

WORK EXPERIENCE

Product Designer I | Lumel Technologies | Microsoft Fabric *Jan 2026 – Present*

- Independently owned end-to-end UX design for multiple enterprise features within Microsoft Fabric, from requirement analysis and concept exploration to final design handoff, following Microsoft Fabric design system guidelines.
- Designed **Model Explorer features**, including product analysis, data comparison, drill-through, and conditional formatting to improve data exploration and analytical workflows.
- Led the design of a **Unified Comments experience across three Fabric products Power Table, Planning, and Intelligence** establishing consistent collaboration and commenting workflows.
- Designed **Annotations and Notes** features to support contextual insights and information sharing within analytical experiences.
- Translated complex product requirements into user flows, wireframes, interaction designs, and high-fidelity prototypes.
- Collaborated directly with product stakeholders, managers, and engineering teams to define requirements, present design decisions, incorporate feedback, and deliver accessible and consistent experiences.

Product Designer Trainee | Lumel Technologies | Microsoft Fabric *Jan 2025 – Dec 2025*

- Designed chart visuals and data visualization experiences for the **Microsoft Fabric Intelligence product.**
- Designed analytics side panels that simplified chart configuration and improved access to visualization settings.
- Worked on dashboard application features, including layout, visualization settings, and interactive design experiences.
- Created UI issue documentation to identify usability inconsistencies and recommend improvements to overall product quality.
- Prepared **accessibility documentation** covering screen reader issues, color contrast, and keyboard navigation to improve product accessibility.
- Contributed to **application theme mode design** for the Planning and Intelligence products, ensuring a consistent user experience across themes.

Product Design Intern| Lumel Technologies | Microsoft Power BI *Feb 2024 – Dec 2024*

- Created **350+ icons** for complex data visualization features and enterprise use cases, improving visual consistency across the product.
- Designed **60+ chart skeletons** and supporting icons to establish reusable visual foundations for chart experiences.
- Contributed to the design of **20+ chart visuals** and related features for the Inforiver Analytics product integrated with Power BI.
- Designed the **Gantt Chart feature** for Power BI, supporting project planning and timeline visualization workflows.
- Collaborated with designers and product teams to translate complex analytical requirements into clear and intuitive visual experiences.

SKILLS

- **Product & UI/UX Design:** End-to-end product design, UX research, interaction design, user flows, wireframing, and prototyping.
- **AI & Workflow Design:** AI-powered workflow design, prompt engineering, and vibe coding for rapid prototyping.
- **Data & Analytics Product Design:** Enterprise SaaS, data visualization, dashboard design, and complex chart experiences.
- **Accessibility & Design Systems:** Following WCAG guidelines and design system standards to create inclusive, consistent, and accessible products.
- **Technical Skills:** HTML, CSS, MySQL, and AI-assisted development.
- **Tools:** Figma, FigJam, Framer, Visual Studio Code, GitHub, Power BI, and Microsoft Fabric.

ACADEMIC QUALIFICATION

- **Software Development Training** – Freshworks | Full-Stack Development Training
- **Bachelor of Computer Applications (BCA)** – Tamil Nadu Open University
